

IPRG5111

Identify a problem that you and your group member(s) would like to design a solution for and provide a summary describing the problem.

This section needs to contain a description of the problem area you are trying to address. It should encompass all aspects of the problem.

(Place this paragraph in a text box on the first page of the Visio document)

You are to create the following in your group:

- Problem Definition (Page 1 in Visio)

Remember to place your name(s) and student Number(s) of your Group members in the top left corner, i.e:

John Smith - ST180011223

Peter Botha - ST19023232

WEDE5020

Complete this CSS quiz.

Answer all the questions.

If you get any answers wrong:

Click on “Check your answers”;

Review the questions you answered incorrectly;

Research the questions and take your own notes on the correct answers;

Redo the quiz until you are satisfied with your result.

Take a screenshot of your result and save it.

Return to this screen and click the link above the red arrow to open the Journal tool.

Create a new journal entry and:

Attach the screenshot of your results.

Post your mark and the notes you took regarding the correct answers.
